

There are many types of work needed to build roads, buildings, and homes. Here are a very few:

Construction Manager

Annual salary range: \$46,000 - \$96,000

Description: Plan, direct, or coordinate, usual through subordinate supervisory personnel, activities concerned with the construction and maintenance of structures, facilities, and systems.

Electrician

Annual salary range: \$30,000 - \$83,000

Description: Install, maintain, and repair electrical wiring, equipment, and fixtures. Ensure that work is in accordance with relevant codes.

Plumbers, Pipefitters and Steamfitters

Annual salary range: \$30,000 - \$83,000

Description: Assemble, install, alter, and repair pipelines or pipe systems that carry water, steam, air, or other liquids or gases. May install heating and cooling equipment.

Structural Iron and Steel Workers

Annual salary range: \$30,000 - \$130,000

Description: Raise, place, and unite iron or steel girders, columns and other structural members to form completed structures or structural frameworks.

Surveyors

Annual salary range: \$35,000 - \$92,000

Description: Make exact measurements and determine property boundaries. Provide data relevant to the shape, contour, gravitation, location, or dimension of land or land features.
